the impact of COVID-19 in Latin-America

# Reactivar

EJE 6

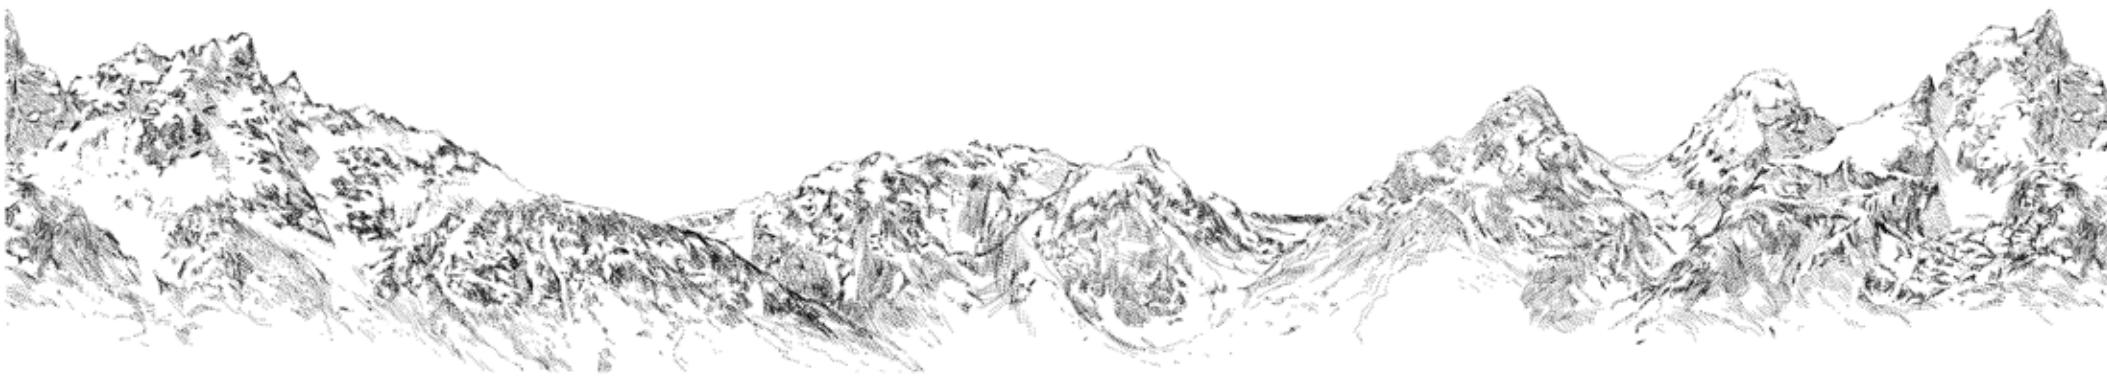

¿Cómo han respondido las ciudades al COVID-19 en áreas vulnerables?

151

En contextos de aislamiento, los ingresos de la ciudad informal se verán afectados, lo que se reflejará claramente tanto en el consumo interno de bienes y servicios como en la economía barrial. Para enfrentar esto es clave pensar en mecanismos de inyección de recursos a pequeños y medianos comercios, que probablemente serán los más golpeados.
